KITCHEN LAYOUT PLANNER

To help you with the planning of your kitchen we have designed this handy kitchen layout planner. It gives you a simple grid where you can indicate the features of your kitchen space, including window, doors and utility points.

1. Measure along the wall to get exact measurements of each.
2. Locate Electrical, Plumbing and Gas Lines and marking them on the grid with the symbols below.

[E] Electrical [P] Plumbing [G] Gas Lines

3. Measure the width of your windows and doors from the outside trim and indicate them on the grid where they sit on the wall.
